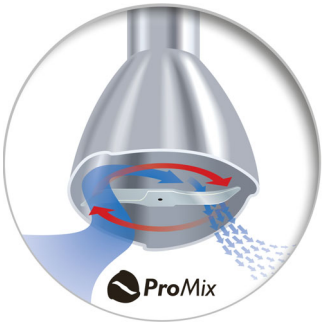
Highlights

ProMix blending technology



The Philips handblender ProMix thechnology was developed together with the prestigious Stuttgart University. It is an advanced technology for more consistent and faster blending. The unique ProMix blending technology of Philips hand blenders uses a triangular shape to create an optimal flow and gives maximum performance making silky smooth soups and smoothies.

650 Watt Motor

650W

With the powerfull motor of 650 Watt alsmost any ingredient can be blend.

Turbo function

With the Turbo function of the Philips handblender you can cut even the toughest ingredients.

Anti-splash blade guard

The special wave shape in the bottom part of the handblender blending bar garantees no splashes or mess while you blend.

Mixer accessory with 2 beaters

This mixer accessory or double whisk for the Philips hand blender has 2 beaters or whisks. It can even make cake batter. The mixer accessory helps you to mix, whisk larger quantities faster and with more volume than the single whisk or by hand. You can prepare cake batter, sponge cake, muffins, cream, eggs and more.

Beaker 1200ml

A beaker 1200ml for blending, whisking, mixing is included with the handblender. The beaker for the handblender comes with a handy spout, handle and measures.

2-button release system

With the 2-button release system of the Philips handblender it is easy to remove the blending bar for easy cleaning.
